How long should I hold it and can I take money out early?

Recommended holding period: Six years, based on our assessment of the risk and reward characteristics and costs of the Fund. This product is intended for long-term investments. You should be willing to remain invested for at least six years. You can redeem your investment at any time, or hold the investment longer.

Order acceptance deadline: Orders to redeem shares must be received by 12.00 (German time), at least one (1) business day before the valuation day. Further details regarding redemptions can be found in the AMUNDI TOP WORLD prospectus.

The Company may suspend the subscription and redemption of units/shares if exceptional circumstances so require, taking into account the interests of investors. To manage liquidity risks, the Company may restrict the redemption of units/shares if investor redemption requests reach a predefined threshold beyond which such requests can no longer be executed in the best interests of all investors. The Company may also use swing pricing, a method by which the costs arising from subscriptions and/or redemptions (e.g. transaction costs) are allocated to investors on a cost-attribution basis, thereby reducing the risk of dilution for the investors remaining in the Fund. The Company may also separate illiquid assets in the interests of investors. Further details can be found in the prospectus.
