## What is this product?

**Type:** Units of Amundi PEA S&P 500 UCITS ETF, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

**Term:** The product has a duration of 99 years. The Management Company may dissolve the product by means of liquidation or merger with another product in accordance with legal requirements.

**AMF Classification ("Autorité des Marchés Financiers"):** International equities

**Objectives:** The Fund is a passively managed index-based UCITS.

The investment objective is to replicate, both upwards and downwards, the performance of the S&P 500 Net Total Return Index (net dividends reinvested) (the "Benchmark"), denominated in US dollars (USD) and representative of the performance of 500 large-cap stocks traded in the United States, while minimising the tracking error between the performance of the FCP and that of its Benchmark (the "Tracking Error").

The expected Tracking Error under normal market conditions is indicated in the Fund's prospectus.

The S&P website ([www.spindices.com](http://www.spindices.com)) contains more detailed information on the Benchmark.

The Fund aims to achieve its objective through indirect replication, namely by entering into one or more OTC swaps (eligible forward financial instruments, "FFIs").

The Fund may invest in a diversified portfolio of international equities, the performance of which will be exchanged against that of the Benchmark through the FFIs.

The updated composition of the portfolio of securities held by the Fund is stated on the website [amundiETF.com](http://amundiETF.com).

In addition, the indicative net asset value is shown on the Reuters and Bloomberg pages of the Fund and can also be stated on the websites of the Fund's listing markets.

The Fund is eligible for the French Equity Savings Plan (PEA) and therefore invests a minimum of 75% of its assets in shares of companies in the European Union.

**Intended retail investors:** This product is intended for investors with a basic knowledge and/or no or limited experience of investing in funds, who are seeking to increase the value of their investment over the recommended holding period and who are able to bear a loss of up to the full amount invested.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website [www.amundi.com](http://www.amundi.com) and/or in the prospectus).

**Redemption and transaction:** The Fund's units are listed and traded on one or more stock exchanges. Under normal circumstances, you can trade units during trading hours. Only authorised participants (e.g. selected financial institutions) can trade units directly with the Fund on the primary market. Further details are provided in the Fund's prospectus.

**Distribution Policy:** As this is a non-distributing unit class, investment income is reinvested.

**More information:** Further information regarding this product, including the prospectus and financial reports, is available free of charge on request from: Amundi Asset Management, 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the product is available at [www.amundi.fr](http://www.amundi.fr)

**Depository:** SOCIETE GENERALE.

## What are the risks and what could I get in return?

### RISK INDICATOR

The risk indicator assumes you keep the product for five years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Additional risks:** Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi PEA S&P 500 UCITS ETF prospectus.

### PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

**What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

### What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 invested.

\* Secondary market: as the Fund is an ETF, investors who are not Authorised Participants will ordinarily only be able to buy or sell its shares on the secondary market. As a result, investors will pay brokerage charges and/or transaction charges on their transactions on the stock market. These brokerage charges and/or transaction charges are neither charged nor payable by the Fund or the Management Company, but by the investor's own intermediary. Furthermore, investors may also incur bid-ask spreads, i.e. the difference between the price a share may be sold at (ask price) and the price it may be bought at (bid price).

Primary market: Authorised Participants who trade directly with the Fund will pay the transaction costs applicable to its primary market.

## How long should I hold it and can I take money out early?

**Recommended holding period:** 5 years. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for medium-term investment; you should be prepared to stay invested for at least 5 years. You can redeem your investment at any time, or hold the investment longer.

**Order schedule:** Information on the order frequency can be found under "What is this product?". Please refer to the section "What are the costs?" for more information on the exit costs.

## How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
