What is this product?

- Type:** This Investment Fund is a sub-Fund of Legal & General UCITS ETF Plc (the "**Company**"), an umbrella investment company with variable capital and segregated liability between Funds. The Fund is authorised in Ireland and regulated by the Central Bank of Ireland.
- Term:** There is no fixed maturity date.
- Objective:** The Fund is a passively managed exchange traded fund that aims to track the performance of the Solactive eCommerce Logistics Index Net Total Return (the "**Index**"), subject to the deduction of the ongoing charges and other costs associated with operating the Fund. The Fund promotes a range of environmental and social characteristics which are met by tracking the Index. Shares in this Share Class (the "**Shares**") are denominated in USD and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on <http://www.lgim.com>. The index is comprised of companies which are publically traded on various stock exchanges around the world that provide (i) "logistics" services (i.e. the warehousing of goods or the fulfilment and delivery of goods) or (ii) software solutions to companies that provide logistic services in connection with "ecommerce" (i.e. the buying and selling of goods on the internet). A company is only eligible for inclusion in the Index if (1) it is of a sufficient size (determined by reference to the total market value of the proportion of its shares that are publically traded) and (2) it is sufficiently "liquid" (a measure of how actively its shares are traded on a daily basis). The universe of companies out of which the Index selection is made is refreshed annually in April. However, the Index is reconstituted semi-annually in April and October in accordance with the full selection criteria and all companies are equally weighted within the Index. On a monthly basis, the weight of each company is assessed and, if any of them exceeds 15% of the Index, the weights of all companies are adjusted so that they are again equally weighted within the Index. The Index will exclude companies which are constituents of the ESG Exclusions Enhanced Index, namely companies that (i) have severe controversies, (ii) are persistent violators of the UN Global Compact, and/or (iii) are involved, to a certain degree, in harmful activities as determined in the Index Methodology available at: www.solactive.com. The Fund will primarily invest directly in the securities represented in the Index in similar proportions to their weightings in the Index. The fund may also invest in (1) logistic companies that are not constituents of the Index that have similar risk and performance characteristics to the companies contained in the Index and (2) financial derivative instruments ("**FDIs**") (i.e. investments the prices of which are based on the companies contained in the Index and/or such other logistic companies). Adjustments to the Fund's portfolio, including as a result of a reconstitution of the Index, will incur transaction costs. This Share Class does not intend to pay dividends. Any income which may result from the Fund's investments will be re-invested into the Fund. The depositary of the Fund is the Bank of New York Mellon SA/NV, Dublin Branch. Further information about the Fund and the share class can be obtained from the Company's prospectus and the annual and semi-annual reports, which are available, in addition to the latest prices for the share class and details of any other share classes, free of charge at: www.lgim.com.
- Intended Retail Investor:** The Fund is designed for investors looking to grow their money in an investment which can form part of their existing savings portfolio. Although investors can take their money out at any time, the Fund may not be appropriate for those who plan to withdraw their money within five years. The Fund is not designed for investors who cannot afford more than a minimal loss of their investment.
