Industria Share Class A (EUR)

ISIN DE0008475021

WKN 847502

PRODUCT

Industria (the "Fund") is established as a Germany domiciled FCP and managed by Allianz Global Investors GmbH, part of group Allianz Global Investors.

This Fund as well as this key information document are authorised and regulated by Bundesanstalt für Finanzdienstleistungsaufsicht in Germany (www.bafin.de).

Allianz Global Investors GmbH, is a German capital management company which is supervised by the Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin).

For more information on this Fund, please refer to <https://regulatory.allianzgi.com> or call +49 69 24431 140.

This key information document is accurate as at 24.04.2026.

WHAT IS THIS PRODUCT?

TYPE

This Fund is a UCITS according to European Directive 2009/65/EC.

TERM

The Fund has been set-up for an indefinite period of time. In accordance with the Fund's rules, the assets belonging to the Fund are owned jointly by the Fund's unitholders. The Management Company may terminate the Fund's management according to the Fund's rules. In this case, the Management Company / the Fund's appointed depository will either entrust its management to another management company or the depository will liquidate the Fund and distribute the proceeds to the Fund's unitholders.

You may redeem shares of the Fund usually on each business day. We usually distribute the income of the Fund on a yearly basis.

OBJECTIVES

The objective of the fund's investment policy is to generate long-term capital growth through exposure primarily to the European equity markets within the framework of the investment principles and in accordance with the environmental and/or social characteristics promoted by the fund.

At least 70% of the fund assets are invested directly or via derivatives in equities and comparable securities of European issuers (including Turkey and Russia). In addition, investments may also be made in other equities and comparable securities. A maximum of 20% of the fund assets may be invested in equities and comparable securities of issuers domiciled in a country that does not fall into the "high gross national income per capita" category according to the World Bank's classification. A maximum of 15% of the fund assets may be invested in money market instruments. A maximum of 10% of the fund assets may be invested in target funds (UCITS and/or UCIs).

The fund promotes environmental and/or social characteristics by aiming to reduce greenhouse gas emissions. The fund also applies certain minimum exclusion criteria and therefore does not invest in securities of companies that fulfil these exclusion criteria. In addition, companies that seriously violate good corporate governance practices are not acquired. Further details regarding the exclusion criteria applied by the fund can be found in the sales prospectus. After applying the exclusion criteria, the fund's investment manager then assesses the remaining companies in which the fund's assets can be invested according to their greenhouse gas emissions ("GHG emissions"), if such data is available. On this basis, the Investment Manager manages the Fund's portfolio in such a way that the weighted average greenhouse gas emissions intensity ("GHG emissions intensity") of the Fund's portfolio decreases by 5.00% annually according to an anticipated schedule. The annual reduction of the GHG emission intensity of the fund portfolio by 5.00% is a fixed target that has been bindingly defined and calculated for the respective future financial year ends of the fund. For this purpose, the GHG emissions intensity of the fund portfolio is determined by calculating the weighted average intensity of the GHG emissions of the issuers contained in the fund portfolio (excluding cash and derivatives), which in turn is calculated on the basis of the annual turnover of the individual companies concerned. GHG includes not only CO₂ emissions, but also other emissions such as methane. The GHG emission intensity is defined as

GHG emissions (Scope 1 and 2) per million USD turnover of an issuer. Scope 1 GHG emissions include an emitter's direct emissions, while Scope 2 includes indirect emissions from purchased energy.

At least 75% of the fund assets are invested in assets whose GHG emission intensity can be assessed. At least 10% of the fund assets are invested in assets that qualify as sustainable investments pursuant to Art. 2 No. 17 of Regulation (EU) 2019/2088. The minimum percentage of assets that qualify as investments aligned with Regulation (EU) 202/852 (the "Taxonomy Regulation") is 0.01% of the fund assets. Further details can be found in the sales prospectus.

We pursue an active management approach aimed at outperforming the benchmark. The benchmark index is used for performance measurement purposes only and not for the purpose of portfolio composition. The majority of the securities included in the Fund are also included in the benchmark index. The fund manager has the flexibility to invest in securities that are not included in the benchmark index. When selecting and weighting the Fund's assets, Fund Management may deviate materially from the securities included in the benchmark index, as well as their corresponding weightings.

Benchmark: MSCI Europe Total Return Net (in EUR).

Derivatives may be used to a large extent to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage). A derivative is a financial instrument whose value depends - not necessarily 1:1 - on the development of one or more underlying assets (e.g., securities or interest rates).

OTHER INFORMATION

Depository: State Street Bank International GmbH

For more details about the Fund, visit the regulatory information website at <https://regulatory.allianzgi.com>. Select your country of residence and your Fund on the website and view the regulatory information or documents provided, which include the following topics and information:

- unit prices, further information (including other unit classes of the Fund) and the Fund's remuneration policy
- past performance (up to 10 years) and performance scenarios of the Fund.

INTENDED RETAIL INVESTOR

This Share Class is aimed at investors with basic knowledge and/or experience of financial products. Prospective investors should be capable of bearing a financial loss and should not attach any importance to capital protection.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

← Lower risk

Higher risk →

The risk indicator assumes you keep the Fund for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Fund compared to other products. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you. We have classified this Fund as 4 out of 7, which is a medium risk class on the basis of the PRIIPs regulation. This rates the potential losses from future

performance at medium level, and poor market conditions could impact our capacity to pay you. The categorisation of the Fund is not guaranteed and may change in the future. Even the lowest category 1 does not mean a risk-free investment.

Be aware of currency risk. You could receive payments in a different currency from your currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. This Fund does not include any protection from future market performance so you could lose some or all of your investment.

The following material risks are not fully captured by the SRI: Unusual market conditions or large unpredictable events can amplify this Fund's risks and trigger other risks such as counterparty, liquidity, and operational risks (a complete description of risks can be found in the Prospectus).

PERFORMANCE SCENARIOS

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund and/or suitable benchmark over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between 2/2025 and 4/2026. The moderate scenario occurred for an investment between 1/2020 and 1/2025. The favourable scenario occurred for an investment between 3/2020 and 3/2025.

Recommended holding period: 5 YEARS

Example Investment: 10,000 EUR

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	3,330 EUR	3,370 EUR
	<i>Average return each year</i>	-66.7 %	-19.5 % each year
Unfavourable	What you might get back after costs	8,020 EUR	9,670 EUR
	<i>Average return each year</i>	-19.8 %	-0.7 % each year
Moderate	What you might get back after costs	10,030 EUR	13,950 EUR
	<i>Average return each year</i>	0.3 %	6.9 % each year
Favourable	What you might get back after costs	15,770 EUR	18,420 EUR
	<i>Average return each year</i>	57.7 %	13.0 % each year

WHAT HAPPENS IF ALLIANZ GLOBAL INVESTORS GMBH IS UNABLE TO PAY OUT?

A default by the management company has no direct impact on your payouts, as the law stipulates that in the event of the insolvency of Allianz Global Investors GmbH, the Fund does not become part of the insolvency estate of Allianz Global Investors GmbH, but remains independent.

Therefore, neither an insolvency of the management company nor of the

Fund's appointed depository will result in an investor losing money in the Fund.

In case of insolvency of the management company, the Fund's depository will either liquidate the Fund and distribute the proceeds to Fund's investors or entrust its management to another management company.

WHAT ARE THE COSTS?

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information about these costs and how

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

they affect your investment.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	646 EUR	1,887 EUR
Annual cost impact (*)	6.5 %	2.7 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 9.6 % before costs and 6.9 % after costs.

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year:
Entry costs	5.00 % of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the Fund will inform you of the actual charge.	484 EUR
Exit costs	We do not charge an exit fee for this Fund, but the person selling you the Fund may do so.	0 EUR
Ongoing costs		
Management fees and other administrative or operating costs	1.65 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	157 EUR
Transaction costs	0.05 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell.	5 EUR
Incidental costs taken under specific conditions		
Performance fees	0.00 % a year of any returns the fund achieves above the benchmark, the MSCI Europe Total Return Net (in EUR).	0 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 years

Due to its investment strategy, the Fund's value may vary considerably over the short time. You should therefore stay invested for at least 5 years to profit from gains on the longer term. If you disinvest earlier, there is a higher risk that you might get back only poor returns, or not even the sum you invested. The Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Fund you will pay the exit fees only.

However, the Company may suspend the issue and redemption of fund units if exceptional circumstances make this appear necessary in the interests of

investors, or restrict redemptions if investors' redemption requests reach a predetermined threshold above which redemption requests can no longer be executed in the interests of investors as a whole and/or extend the notice period for returning the fund units. In order to manage liquidity risks, the Company may use procedures whereby the costs incurred by subscriptions or redemptions (e.g., transaction costs) are allocated to investors on a cost-allocation basis, thereby reducing the risk of dilution for the investors remaining in the fund. The Company may spin off illiquid investments in the fund portfolio in the interests of investors. The detailed redemption procedure for fund units of the Fund is described in the prospectus.

HOW CAN I COMPLAIN?

Please contact the complaint management team using the details below. They will oversee the processing of the complaint by the different lines of business involved until its resolution and will ensure that potential conflicts of interest are identified and handled appropriately.
