# Allianz Euro Rentenfonds Share Class A (EUR)

ISIN DE0008475047

WKN 847504

## PRODUCT

**Allianz Euro Rentenfonds** (the "Fund") is established as a Germany domiciled FCP and managed by Allianz Global Investors GmbH, part of group Allianz Global Investors.

This Fund as well as this key information document are authorised and regulated by Bundesanstalt für Finanzdienstleistungsaufsicht in Germany ([www.bafin.de](http://www.bafin.de)).

Allianz Global Investors GmbH, is a German capital management company which is supervised by the Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin).

For more information on this Fund, please refer to <https://regulatory.allianzgi.com> or call +49 69 24431 140.

This key information document is accurate as at 24.04.2026.

## WHAT IS THIS PRODUCT?

### TYPE

This Fund is a UCITS according to European Directive 2009/65/EC.

### TERM

The Fund has been set-up for an indefinite period of time. In accordance with the Fund's rules, the assets belonging to the Fund are owned jointly by the Fund's unitholders. The Management Company may terminate the Fund's management according to the Fund's rules. In this case, the Management Company / the Fund's appointed depository will either entrust its management to another management company or the depository will liquidate the Fund and distribute the proceeds to the Fund's unitholders.

You may redeem shares of the Fund usually on each business day. We usually distribute the income of the Fund on a yearly basis.

### OBJECTIVES

The objective of the Fund's investment policy is to achieve a market-appropriate return in relation to the euro bond markets within the framework of the investment principles and in line with the environmental and/or social characteristics promoted by the Fund.

We primarily invest in interest-bearing securities that have good credit quality and are issued by issuers from industrialised countries. These securities have an average duration (remaining maturity) of between 3 and 11 years. The foreign currency risk vis-à-vis the euro is limited to a maximum of 5.00% of the Fund's assets. A maximum of 10% of the Fund's assets may be invested in target funds (UCITS and/or UCI).

The Fund promotes environmental and/or social characteristics and thus a broad range of sustainability factors. Sustainability factors within the meaning described above that are taken into account and analysed include environmental, social, human rights, corporate governance and business conduct factors. In the case of a state-controlled issuer, additional or different sustainability factors may also be taken into consideration. The Fund also applies certain minimum exclusion criteria and therefore does not invest in securities of companies that meet these exclusion criteria. Furthermore, companies that significantly violate good corporate governance practices are not acquired. Further details regarding the exclusion criteria applied by the Fund can be found in the prospectus and the pre-contractual information of the Fund. After application of the exclusion criteria, the Fund's investment manager selects from the remaining investment universe, across all sectors, those issuers that perform better within their respective sector based on the sustainability factors analysed by the Company. Based on the results of the external and/or internal analyses, which take into account both past and current compliance with and implementation of the sustainability factors by the issuer, an individual score is assigned to the issuer by the Company, insofar as this is possible. Cash and deposits cannot be assessed. Derivatives are generally not assessed. Derivatives (with the exception of credit default swaps) whose underlying consists of a single assessed corporate issuer are generally assessed. This assessment in the form of an individual score constitutes an internal rating (the "score"). The score ranges from 0 (lowest value) to 4

(highest value). The assigned scores are reviewed at least twice per year.

At least 90% of the Fund's assets are invested in assets that have been assigned an internal score of at least "1". At least 2.00% of the Fund's assets are invested in assets that qualify as sustainable investments according to Art. 2(17) of Regulation (EU) 2019/2088. The minimum percentage of assets that qualify as investments aligned with Regulation (EU) 2020/852 (the "Taxonomy Regulation") is 0.01% of the Fund's assets. Further details can be found in the prospectus.

We pursue an active management approach aimed at outperforming the benchmark. The benchmark index is used for performance measurement purposes only and not for the purpose of portfolio composition. A minority of the securities included in the Fund are also included in the benchmark index. The fund manager has the flexibility to invest in securities that are not included in the benchmark index. When selecting and weighting the Fund's assets, Fund Management may deviate materially from the securities included in the benchmark index, as well as their corresponding weightings.

Benchmark: J.P. MORGAN EMU Investment Grade Total Return (in EUR).

Derivatives may be used to a large extent to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage). A derivative is a financial instrument whose value depends - not necessarily 1:1 - on the development of one or more underlying assets (e.g., securities or interest rates).

## OTHER INFORMATION

**Depository:** State Street Bank International GmbH

For more details about the Fund, visit the regulatory information website at <https://regulatory.allianzgi.com>. Select your country of residence and your Fund on the website and view the regulatory information or documents provided, which include the following topics and information:

- unit prices, further information (including other unit classes of the Fund) and the Fund's remuneration policy
- past performance (up to 10 years) and performance scenarios of the Fund.

## INTENDED RETAIL INVESTOR

This Share Class is aimed at investors with basic knowledge and/or experience of financial products. Prospective investors should be capable of bearing a financial loss and should not attach any importance to capital protection.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### RISK INDICATOR

← Lower risk

Higher risk →

The risk indicator assumes you keep the Fund for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Fund compared to other products. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you. We have classified this Fund as 3 out of 7, which is a medium-low risk class on the basis of the PRIIPs regulation. This rates the potential losses from future

performance at medium-low level, and poor market conditions are unlikely to impact our capacity to pay you. The categorisation of the Fund is not guaranteed and may change in the future. Even the lowest category 1 does not mean a risk-free investment.

**Be aware of currency risk. You could receive payments in a different currency from your currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** This Fund does not include any protection from future market performance so you could lose some or all of your investment.

The following material risks are not fully captured by the SRI:

Unusual market conditions or large unpredictable events can amplify this Fund's risks and trigger other risks such as counterparty, liquidity, and operational risks (a complete description of risks can be found in the Prospectus).

### PERFORMANCE SCENARIOS

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund and/or suitable benchmark over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between 10/2020 and 10/2023. The moderate scenario occurred for an investment between 2/2019 and 2/2022. The favourable scenario occurred for an investment between 1/2018 and 1/2021.

**Recommended holding period: 3 YEARS**

**Example Investment: 10,000 EUR**

Scenarios		If you exit after 1 year	If you exit after 3 years
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b> <i>Average return each year</i>	7,270 EUR -27.3 %	7,180 EUR -10.5 % each year
<b>Unfavourable</b>	<b>What you might get back after costs</b> <i>Average return each year</i>	7,750 EUR -22.5 %	7,400 EUR -9.6 % each year
<b>Moderate</b>	<b>What you might get back after costs</b> <i>Average return each year</i>	9,570 EUR -4.3 %	9,700 EUR -1.0 % each year
<b>Favourable</b>	<b>What you might get back after costs</b> <i>Average return each year</i>	10,670 EUR 6.7 %	10,600 EUR 1.9 % each year

### WHAT HAPPENS IF ALLIANZ GLOBAL INVESTORS GMBH IS UNABLE TO PAY OUT?

A default by the management company has no direct impact on your payouts, as the law stipulates that in the event of the insolvency of Allianz Global Investors GmbH, the Fund does not become part of the insolvency estate of Allianz Global Investors GmbH, but remains independent.

Therefore, neither an insolvency of the management company nor of the

Fund's appointed depository will result in an investor losing money in the Fund.

In case of insolvency of the management company, the Fund's depository will either liquidate the Fund and distribute the proceeds to Fund's investors or entrust its management to another management company.

### WHAT ARE THE COSTS?

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information about these costs and how

#### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

they affect your investment.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	546 EUR	699 EUR
<b>Annual cost impact (*)</b>	5.5 %	2.3 % each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 1.3 % before costs and -1.0 % after costs.

### COMPOSITION OF COSTS

<b>One-off costs upon entry or exit</b>		If you exit after 1 year:
<b>Entry costs</b>	5.00 % of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the Fund will inform you of the actual charge.	480 EUR
<b>Exit costs</b>	We do not charge an exit fee for this Fund, but the person selling you the Fund may do so.	0 EUR
<b>Ongoing costs</b>		
<b>Management fees and other administrative or operating costs</b>	0.70 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	67 EUR
<b>Transaction costs</b>	0.00 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell.	0 EUR
<b>Incidental costs taken under specific conditions</b>		
<b>Performance fees</b>	There is no performance fee for this Fund.	0 EUR

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

### Recommended holding period: 3 years

Due to its investment strategy, the Fund's value may vary considerably over the short time. You should therefore stay invested for at least 3 years to profit from gains on the longer term. If you disinvest earlier, there is a higher risk that you might get back only poor returns, or not even the sum you invested. The Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Fund you will pay the exit fees only.

However, the Company may suspend the issue and redemption of fund units if exceptional circumstances make this appear necessary in the interests of

investors, or restrict redemptions if investors' redemption requests reach a predetermined threshold above which redemption requests can no longer be executed in the interests of investors as a whole and/or extend the notice period for returning the fund units. In order to manage liquidity risks, the Company may use procedures whereby the costs incurred by subscriptions or redemptions (e.g., transaction costs) are allocated to investors on a cost-allocation basis, thereby reducing the risk of dilution for the investors remaining in the fund. The Company may spin off illiquid investments in the fund portfolio in the interests of investors. The detailed redemption procedure for fund units of the Fund is described in the prospectus.

## HOW CAN I COMPLAIN?

Please contact the complaint management team using the details below. They will oversee the processing of the complaint by the different lines of business involved until its resolution and will ensure that potential conflicts of interest are identified and handled appropriately.
