What is this product?

Type

J O Hambro Capital Management Continental European Fund (the "Fund") is a sub-fund of Perpetual Investment Services Europe ICAV, incorporated in Ireland.

Term

The term of the Fund is unlimited with no maturity date. The Manager may not unilaterally terminate the Fund, however, the Fund may be terminated in line with the termination provisions contained in its constitutional documents.

Objectives

The investment objective is to achieve long-term capital growth. The Fund will typically invest at least 85% in shares and similar investments of companies domiciled or exercising the predominant part of their economic activities in Europe, excluding the UK. However, at no time will the Fund have less than two-thirds invested in such investments. The Fund may invest up to 15% in company shares and similar investments outside Europe.

The Fund is actively managed and promotes ESG characteristics (within the meaning of Article 8 of Regulation (EU) 2019/2088). The investment process combines top-down macroeconomic and sector views with bottom-up stock picking.

The MSCI Europe ex UK Net Return Index is a point of reference against which the performance of the Fund may be measured. Although a proportion of the Fund's investments may be components of the Index, the Fund has the ability to deviate significantly from the Index.

This share class distributes income generated by the fund to investors annually. Dividends will be automatically reinvested where a cash

payment is not requested.

The mid day index is a customised report that aligns with the funds mid day valuation point.

Intended retail investor

The Fund is intended for investors seeking medium to long-term capital growth. Typically, investors should have a minimum time horizon of 3 to 5 years. Investors should understand the Fund's risks and that it is designed to be used as one component of a diversified investment portfolio. This Fund is not appropriate for investors who cannot afford capital loss of their investment or need a fully guaranteed income or fully predictable return profile.

Other information

Depository: Northern Trust Fiduciary Services (Ireland) Limited.

The assets and liabilities of the Fund are segregated from other sub-funds of the ICAV but other jurisdictions may not recognise such segregation.

This Key Information Document is prepared for one share class in a sub-fund of the ICAV. The Prospectus and annual and semi-annual reports are prepared for the entire ICAV and are available in English and free of charge at www.johcm.com. The share price and information on other share classes of the Fund, other sub-funds of the ICAV and how to switch are available at www.johcm.com.

Further information is available from the Administrator, Northern Trust International Fund Administration Services (Ireland) Limited, George's Court, 54-62 Townsend Street, Dublin 2, Ireland.

What are the risks and what could I get in return?

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of the product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not

able to pay you.

We have classified the product as 4 out of 7 which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the Prospectus for full details about other risks materially relevant to the product that are not included in the summary risk indicator.

The product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last

10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		EUR 10000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 3730	EUR 3410
	Average return each year	-62.70%	-19.36%
Unfavourable	What you might get back after costs	EUR 8080	EUR 9970
	Average return each year	-19.20%	-0.06%
Moderate	What you might get back after costs	EUR 10290	EUR 14460
	Average return each year	2.90%	7.65%
Favourable	What you might get back after costs	EUR 14340	EUR 18100
	Average return each year	43.40%	12.60%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 2024 and 2025.

Moderate scenario: This type of scenario occurred for an investment between 2016 and 2021.

Favourable scenario: This type of scenario occurred for an investment between 2020 and 2025.

What happens if Perpetual Investment Services Europe Limited is unable to pay out?

If the product is not able to pay out what you are owed, you are not covered by any investor compensation or guarantee scheme and you may face financial loss.

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the depositary will not be affected. However, in the event of the depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact the depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure to properly fulfil its obligations (subject to certain limitations). There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10000 per year is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 638	EUR 1752
Annual cost impact (*)	6.4%	2.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.2% before costs and 7.7% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 5.00% of the amount you pay in when entering this investment.	Up to EUR 500
