MANAGEMENT COMPANY: Waystone Management Company (IE) Limited (the "Management Company") is authorised in Ireland and regulated by the Central Bank of Ireland.

Authorised in: This PRIIP is authorised in Ireland.

ISSUED ON 01/01/2023

WHAT IS THIS PRODUCT?

Type: KraneShares MSCI China A 50 Connect UCITS ETF (the "Fund") is a sub-fund of KraneShares ICAV, an Irish collective asset-management vehicle ("ICAV") constituted as an umbrella fund with segregated liability between sub-funds with registration number C181441 and authorised by the Central Bank of Ireland as a UCITS pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. Segregated liability between sub-funds means that the assets and liabilities of each sub-fund are segregated by law, so that an investor should have no claims over the assets of a sub-fund in which they do not own shares. The prospectus and periodic reports are prepared for KraneShares ICAV at umbrella level. Shares in the Fund may not be converted into shares in another sub-fund or from one share class in the Fund into another share class within the same sub-fund.

Objectives: The Fund seeks to deliver the performance of Chinese renminbi-denominated equity securities listed on the Shenzhen or Shanghai Stock Exchanges.

Investment Policy: The Fund is passively managed and will seek to achieve its objective by passively tracking the performance of the MSCI China A 50 Connect Index (the "Index") as closely as possible. The Index is derived from the MSCI China A Index (the "Parent Index") which is, in turn, derived from the MSCI China A International Index but only includes securities that are accessible through the Stock Connect Programs. The Fund invests primarily in securities which are included in the Index. The Index's constituents are taken from the Parent Index and it aims to reflect the performance of the 50 largest securities representing each Global Industry Classification Standard sector and reflect the sector weight allocation of the Parent Index. The Fund seeks to hold all the securities of the Index with the approximate weightings that they have in the Index. The Fund seeks to create a near mirror image of the Index but may, in certain circumstances purchase securities that are not included in the Index. Although the Index is generally well diversified, because of the market it reflects, depending on market conditions, the Fund may, in order to track the Index accurately, hold positions in individual constituents of the Index up to 20% of the Fund's Net Asset Value. The Fund does not intend to use financial derivative instruments. The Fund may also invest up to 10% of its net asset value in other regulated collective investment schemes, including other exchange traded funds. The Fund may engage in securities lending but does not intend to use repurchase agreements or total return swaps. The Fund's income will be reinvested, and the Fund does not intend to declare dividends. Save in exceptional circumstances, the Fund will only issue and redeem shares of the Fund ("Shares") to certain institutional investors. However, other investors may purchase or sell Shares through brokers on or one more stock exchanges. The Shares trade on these stock exchanges at market prices which may fluctuate throughout the day. Market prices may be greater or less than the daily net asset value of the Fund. Shareholders may redeem shares on any business day (a day on which commercial banks are open and settle payments in London and New York, including days on which such commercial banks are open only half a day) and any other day at the directors' discretion provided Shareholders are notified in advance. A list of dealing days for the Fund is published on <https://kraneshares.eu/>

The Fund's base currency and the class currency of the Class is U.S. Dollars.

Depositary: SEI Investments – Depositary and Custodial Services (Ireland) Limited

Intended Retail Investors: Typical investors in the Fund are expected to be investors who are seeking exposure to the performance of RMB A-Share and are prepared to accept the risks associated with an investment of this type.

Term: The Fund has no maturity date. The Management Company is not entitled to terminate the Fund unilaterally. The Fund may be terminated unilaterally by KraneShares ICAV under certain circumstances as set out in the prospectus for KraneShares ICAV.

Copies of the prospectus, the latest annual and half-yearly reports and application forms may be obtained in English fee of charge by contacting the Management Company at 35 Shelbourne Road, Ballsbridge, Dublin 4, Dublin, DO4 A4EO, Ireland, or via <https://www.waystone.com/funds/kraneshares-icav/>.

Further information on the latest share price as well as further practical information on the Fund is published on <https://kraneshares.eu/ka50In/>.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Lower Risk ← Higher Risk
Typically lower rewards Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return

you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The Fund is subject to the following Risk Factors (without limitation):

- Concentration Risk
- Index Tracking Risk
- Liquidity Risk
- China Risk
- Emerging Market Risk
- ETF Specific Risk
- Country Risk
- Equity Risk

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN? (CONTINUED)

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years	1 year	5 years (Recommended Holding period)
Investment 10,000 USD		
Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	2,200 USD
	Average return each year	-77.99%
Unfavourable	What you might get back after costs	5,410 USD
	Average return each year	-45.93%
Moderate	What you might get back after costs	10,710 USD
	Average return each year	7.10%
Favourable	What you might get back after costs	22,090 USD
	Average return each year	120.89%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF KRANESHARES ICAV IS UNABLE TO PAY OUT?

SEI Investments – Depository and Custodial Services (Ireland) Limited (The “Depository”) will perform safekeeping duties for the Fund’s assets. In the event of the insolvency of the Manufacturer (Krane Shares ICAV), the Fund’s assets in the safekeeping of the Depository will not be affected. However, in the event of the Depository’s insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Fund. The Depository will also be liable to the Fund and the investors for any loss arising from its negligent, or intentional failure properly to fulfil its obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10,000 is invested.

Investment 10,000 USD Scenarios	If you exit after 1 year	If you exit after 5 years
Total Costs	122 USD	969 USD
Annual Cost Impact (*)	1.22%	1.34% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.29% before costs and 8.95% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

WHAT ARE THE COSTS (CONTINUED)

COMPOSITION OF COSTS

		If you exit after 1 year
One-Off Costs upon entry or exit		
Entry Costs	There are no entry costs for this product.	0 USD
Exit Costs	There are no exit costs for this product.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	All the ordinary operating and administrative expenses of the Share Class shall be paid out of the Total Expense Ratio ("TER") of 0.40% the value of your investment per year. This is an estimate based on actual costs over the last year.	40 USD
Transaction costs	0.82% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. The TER does not include transaction costs.	82 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 USD

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 years.

The Fund is designed to deliver capital appreciation over a long-term investment horizon with a medium-high level of risk.

You can redeem your shares on a daily basis with no penalty.
