What is this product?

Type	<p>SICAV Teil I Gesetz von 2010</p> <p>It is a sub-fund of an umbrella structure consisting of one or more sub-funds. The periodic reports are prepared for the umbrella structure. These documents are available as set out under "Other relevant information". Each sub-fund is regarded as a separate fund in the relationship between the unitholders. The rights and obligations of the unitholders of one subfund are separate from those of the unitholders of the other subfunds. In relation to third parties, the assets of a subfund are only liable for liabilities and payment obligations relating to that subfund. In principle, unitholders have the right to convert the units held into units of another subfund. Supplementary information can be found in the respective valid sales prospectus.</p>
Term	<p>The Fund was established for an indefinite period. However, it may be wound up at any time if it is no longer possible to manage the Fund efficiently or if a change in the economic and/or political environment makes it necessary to wind it up.</p>
Objectives	<p>The sub-fund's investment objective is to invest the Fund's assets internationally in securities in accordance with the principle of risk diversification in order to achieve appropriate income and the highest possible long-term growth in value. This sub-fund is a financial product promoting, inter alia, environmental or social features and qualifies under Article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosure requirements in the financial services sector (SFDR). For this purpose, the sub-fund invests at least 20% of the net sub-fund assets in environmentally or socially sustainable investments pursuant to Article 2 (17) SFDR. Further information is contained in the pre-contractual information, which is attached to the sales prospectus as an appendix. The sub-fund invests in shares at a rate of at least 60%, which qualify as equity participations. Moreover, annuities of all types, certificates that contain shares as their underlying asset and that are officially listed or traded on stock exchanges or other regulated markets that are recognised and open to the public and that operate regularly – "regulated markets" – and convertible bonds and option bonds can be acquired for the fund. Investments in bonds with a rating worse than B- (S&P / Fitch) or B3 (Moody's) are not permissible. If several ratings are available for one bond, the worst rating is used as a basis. An acquisition of asset-backed securities or CoCo bonds as structured products is not permitted (this prohibition explicitly does not include warrants, convertible bonds and option bonds or certificates; they are therefore permitted as acquirable assets for the company). Units in investment funds are not acquired for the fund. The sub-fund is thus eligible as a target fund. The fund may hold ancillary liquid assets up to 20%. The fund is not focused on any specific geographical area, industry or sector. The selection of individual securities is made by the fund management. The fund may use derivative transactions to reduce potential losses or to achieve higher capital gains. The income may be paid out to you. This sub-fund is an actively managed sub-fund that does not follow a benchmark.</p>
Target retail investor group	<p>The fund is intended for private clients, professional clients and eligible counterparties that pursue the objective of asset accumulation/optimisation. This fund is a product for investors with general knowledge of and/or experience with financial products. The potential investor could bear a financial loss up to the amount of the capital invested and does not attach any importance to capital protection. The investor's intended time horizon should be long-term.</p>
Further information	<p>The fund's depository is Hauck Aufhäuser Lampe Privatbank AG, Niederlassung Luxemburg. The prospectus and the current annual and semi-annual reports, the current unit prices and further information on the fund can be found free of charge in German or English at www.hauck-aufhaeuser.com.</p>

What are the risks and what could I get in return?

Risk Indicator

We have classified this product in risk class 4 on a scale of 1 to 7, where 4 corresponds to medium risk class.

The risk of potential losses from future performance is classified as medium. In adverse market conditions, it is possible that the ability of the Hauck & Aufhäuser Fund Services S.A. to pay you will be affected.

The product may be exposed to further risks that are not reflected in the global risk indicator. Please refer to the sales prospectus for more information.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 6 year(s)
Total costs	761.15 EUR	2,015.43 EUR
Impact on return (RIY) per year	7.61 %	3.11 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.1% before costs and -0.01% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. This person will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (5% of amount invested /500 EUR). This person will inform you of the actual distribution fee.

Composition of costs

The aggregated cost estimation above includes the average over the last 5 years.	7.74 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 6 year(s)

In view of the risk and return profile, we recommend a holding period of at least 6 years for this fund. However, you may redeem the fund on the terms set out in the prospectus. Early redemption may significantly affect the risk and return profile. Redemption may be temporarily suspended if there are circumstances that require a suspension and if this is considered justified, while taking into account the interests of the investors.

At least two liquidity management instruments are used, which are explained in more detail in the sales prospectus. If necessary, the redemption of shares may be restricted or a redemption fee may be charged in favor of the fund.
