What is this product?

Type

The fund is a UCITS investment fund issued in Luxembourg.

This document refers to unit class A of the Lupus alpha Smaller Euro Champions. New unit classes may be formed at any time. However, the rights of investors who have purchased units in existing unit classes will remain.

This Key Information Document relates to a sub-fund of the Lupus alpha Fund. The assets and liabilities of each Lupus alpha Fonds sub-fund are legally separate. Investors have the right to exchange their units in the sub-fund for units in another sub-fund. For more information, please refer to the prospectus.

Term

The fund has an indefinite term. The company is entitled to terminate the management of the fund subject to a notice period of six months by way of an announcement in the Federal Gazette and furthermore in its annual or half-yearly report. Information on redemption options can be found in the section "How long should I hold the investment and can I withdraw money prematurely?"

Objective

The sub-fund's investment objective is to achieve the highest possible increase in value. To this end, the return potential of smaller and medium-sized companies from the eurozone is exploited. The fund is benchmarked to the EURO STOXX TMI Small EUR Net Return Index, whereby the fund is actively managed within its objectives and the fund management may deviate from the benchmark in whole or in part at any time.

Intended Retail Investor

The fund is aimed at all types of investors pursuing the goal of asset accumulation or asset optimisation and who wish to invest on a medium-term basis. They should be in a position to bear losses up to the amount of the capital they have invested. This fund is a product for customers with a basic knowledge of, and experience with, financial products.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 3 years Investment: 10,000 EUR			
Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	3,880 EUR	4,110 EUR
	Average return each year	-61.20%	-25.60%
Unfavourable	What you might get back after costs	6,930 EUR	8,150 EUR

Moderate	What you might get back after costs	9,970 EUR	11,600 EUR
	Average return each year	-0.30%	5.10%
Favourable	What you might get back after costs	16,020 EUR	16,670 EUR
	Average return each year	60.20%	18.60%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between January 2022 and December 2024.

Moderate: This type of scenario occurred for an investment between November 2015 and October 2018.

Favourable: This type of scenario occurred for an investment between January 2019 and December 2021.

What happens if Lupus alpha Investment GmbH is unable to pay out?

The failure of the company will have no direct effect on your redemption, as the statutory regulation provides that in the event of the insolvency of the financial investment management company, the investment fund will not become part of the assets of the insolvency estate, but will be administered independently.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	829 EUR	1,694 EUR
Annual cost impact(*)	8.3%	4.9%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.0% before costs and 5.1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	500 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.8% of the value of your investment per year. This is an estimate based on actual costs over the last year.	220 EUR
Transaction costs	0.5% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	51 EUR
Incidental costs taken under specific conditions		
Performance fees	17,50% of the amount by which the performance of the sub-fund's net assets exceeds that of the benchmark (Euro Stoxx TMI Small Net Return) during a fiscal year. Relative negative changes in value are carried forward to the next accounting period and must first be fully made up.	58 EUR

How long should I hold it and can I take money out early?
