What is this product?

Type

This is an open ended UCITS fund.

Term

The fund is established for an unlimited period. In certain circumstances the fund may be unilaterally terminated in accordance with legal requirements.

Investment objective

The fund aims to provide capital growth in excess of the MSCI Europe (Net TR) Index after fees have been deducted over a three to five year period by investing in equities of European companies.

The fund is actively managed and invests at least two-thirds of its assets in a concentrated range of equities of European companies. The fund typically holds 30 - 70 companies.

The fund applies a disciplined value investment approach, seeking to invest in a select portfolio of companies that the investment manager believes are significantly undervalued relative to their long-term earnings potential.

Value investments can be out of favour for many reasons, including weak short-term profitability, macro-economic concerns or an under strength balance sheet. These factors can significantly reduce the attractiveness of companies to short term investors and induce discounts to fair value. The investment manager's long term focused value investment approach seeks to exploit this in a diversified manner.

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

The fund is valued with reference to the net asset value of the underlying assets.

Benchmark: The fund's performance should be assessed against its target benchmark, being to exceed the MSCI Europe (Net TR) Index and

compared against the MSCI Europe Value (Net TR) index and the Morningstar Europe Flex Cap Equity Category. The fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark and the MSCI Europe Value (Net TR) index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the investment manager invests the fund's assets. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark or the MSCI Europe Value (Net TR) index. Please see appendix III of the fund's prospectus for further details.

Currency: The sub-fund currency is EUR. The share class currency is EUR.

Dealing Frequency: You may redeem your investment upon demand. This fund deals daily.

Distribution Policy: This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Depositary: J.P. Morgan SE

Intended retail investor

The fund may be suitable for investors who are more concerned with maximising long term returns than minimising possible short term losses. The fund is intended for retail investors who have a basic investment knowledge and an ability to bear large short-term losses. This investment should form part of a varied investment portfolio. This fund is suitable for general sale to retail and professional investors through all distribution channels with or without professional advice.

What are the risks and what could I get in return?

Risks

The risk indicator assumes you keep the product for 3 years. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the market or because we are not able to pay you.

Performance Scenarios

We have classified this product as 4 out of 7, which is a medium risk class. The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Be aware of currency risk. In some circumstances you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

You can find more information about the other risks in the prospectus at www.schroders.com.

The Favourable scenario occurred for an investment between 03 2020 to 03 2023

What happens if Schroder Investment Management (Europe) S.A. is unable to pay out?

The fund's assets are held in safekeeping by its depositary, so the fund's ability to pay out would not be affected by the insolvency of Schroder Investment Management (Europe) S.A. In addition, the fund's assets are segregated from the depositary's assets, which limits the risk of the fund suffering loss in case of default or insolvency of the depositary or someone acting on its behalf. However in the event of any loss, there is no compensation or guarantee scheme in place which may offset such loss.

What are the costs?

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000,00 is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 709	EUR 1159
Annual cost impact (*)	7.0%	3.8% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7,4 % before costs and 3,6 % after costs.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.
