What is this product?

Type

The product is a share class of the sub-fund BAKERSTEEL GLOBAL FUNDS SICAV - Electrum Fund, which is part of BAKERSTEEL GLOBAL FUNDS SICAV (the "umbrella fund"), an open-ended investment company with variable capital (société d'investissement à capital variable - SICAV) of the umbrella type governed by Part I of the Luxembourg Law of 17 December 2010, as amended (2010 Law), and thus qualifies as a UCITS. The assets and liabilities of all sub-funds are segregated by law.

Term

The sub-fund has no maturity date. Notwithstanding this provision, the sub-fund, in keeping with the articles of association, may be dissolved at any time by resolution of the board of directors.

Objectives

Investment objective

The objective of the investment policy of BAKERSTEEL GLOBAL FUNDS SICAV – Electrum Fund ("sub-fund") is to achieve, with observance of the investment risk, an appropriate value growth in the sub-fund currency through a globally diversified portfolio of investments. The sub-fund is actively managed. The composition of the portfolio is established, regularly reviewed and adjusted where appropriate by the Fund Manager in accordance with the criteria defined in the investment objectives/ investment policy. The sub-fund may incur additional performance-related fees ('performance fee'), which are calculated in reference to the Benchmark MSCI ACWI Metals & Mining Index ('Index'). The investment universe of the sub-fund is not limited to the components of the index. The index may therefore differ significantly from the performance of the sub-fund.

Investment policy

Aside from financial aspects, the sub-fund also takes environmental and social aspects and the principles of good corporate governance (Environment, Social, Governance - ESG) into account in its investment decision-making process in accordance with the Investment Manager's ESG Policy. Detailed information on the responsible investment principles of the Investment Manager and the Management Company can be found on their respective websites.

The sub-fund is an equity fund. The sub-fund invests its assets largely in shares of companies, whose business objective is the extraction, processing and marketing of primary RESOURCES. "Primary RESOURCES" refers to those resources that are physically present, e.g. water, precious and industrial metals, oil, natural gas and agricultural commodities. The sub-fund generally has the option of investing in equities, money market instruments, certificates, target funds and fixed-term deposits, depending on the market situation and assessment by the Fund Management. These certificates are for legally permitted underlying assets such as: shares, bonds, investment fund units, financial indices and currencies. Investments in shares will constitute at least 51%. The sub-fund may use derived financial instruments ("derivatives") in order to achieve the aforementioned investment objectives as well as for investment and hedging purposes.

Detailed information on the aforementioned (and/or further) investment opportunities of the Fund can be found in the current sales prospectus.

Dividend policy

The income remains in the fund.

Subscription and redemption

Shareholders redeem their shares on any banking day in Luxembourg, with the exception of 24 and 31 December. For details on return options, please refer to the section "How long should I hold the investment and can I withdraw money early?".

Intended retail investor

The fund is aimed at all types of investors who pursue the goal of asset accumulation or asset optimisation and wish to invest in the long term. They should be able to bear losses up to the amount of the capital invested. The fund shall promote environmental and/or social characteristics in accordance with Article 8 of Regulation (EU) 2019/2088.

Depositary

The fund's depositary is DZ PRIVATBANK AG, Luxembourg branch, whose registered office is at 4, rue Thomas Edison, L-1445 Strassen, Luxembourg.

What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator is based on the assumption that you will hold the product for 5 years.

If you cash in the investment early, the actual risk may differ significantly and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Please be aware of currency risk if your reference currency differs from the currency of the product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the risk indicator may be materially relevant:

- Liquidity risk
- Operational risk

Please see the prospectus for further information.

This product does not include protection against future market developments, so you could lose all or part of the capital invested.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 EUR	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	2,590 EUR	2,180 EUR
	Average return each year	-74.10%	-26.26%
Unfavourable	What you might get back after costs	6,840 EUR	13,500 EUR
	Average return each year	-31.60%	6.19%
Moderate	What you might get back after costs	10,230 EUR	18,210 EUR
	Average return each year	2.30%	12.74%
Favourable	What you might get back after costs	18,460 EUR	27,630 EUR
	Average return each year	84.60%	22.54%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This scenario occurred with an investment between April 2022 and December 2025.

Moderate scenario: This scenario occurred with an investment between June 2019 and June 2024.

Favourable scenario: This scenario occurred with an investment between January 2016 and January 2021.

What happens if IPConcept (Luxemburg) S.A. is unable to pay out?

The default of IPConcept (Luxemburg) S.A. has no direct effect on your payout, as the statutory regulation stipulates that, if IPConcept (Luxemburg) S.A. becomes insolvent, the special assets do not become part of the insolvency estate, but are instead maintained independently.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs, if applicable. The amounts shown here are illustrations based on an investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR will be invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	856 EUR	4,324 EUR
Annual cost impact (*)	8.6%	4.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 17.6 % before costs and 12.7 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The entry costs amount to 5.00% (front-end load), which corresponds to a deduction of 4.76% of your investment amount. This is the maximum amount that can be withheld from your investment. The financial advisor will inform you about the actual value.	Up to 476 EUR
Exit costs	We do not charge an exit fee.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.24% of the value of your investment per year. This is an estimate based on actual costs over the last year.	224 EUR
Transaction costs	0.44% of the value of your investment per year. This is an estimate of the costs incurred when we buy or sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	44 EUR
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	1.12% of the value of your investment per year. The actual amount depends on how well your investment performs. The above estimate of cumulative cost includes the average of the last five years.	112 EUR

How long should I hold it and can I take money out early?

Due to the risk and return profile, we recommend a holding period of at least 5 years for this product.

However, you can return the product in accordance with the return procedures specified in the Sales Prospectus. An early return can significantly affect the risk and return profile. The redemption of shares may be suspended if exceptional circumstances appear to make this necessary, taking into account the interests of the shareholders, or limited if the shareholders' redemption requests reach a predefined threshold above which said requests can no longer be executed in the interests of the shareholders as a whole. The redemption period may be extended if this is necessary in the interests of the shareholders. The Management Company may separate certain assets whose economic or legal characteristics have changed significantly or become unsafe due to exceptional circumstances from the other assets of sub-fund. Please refer to the Sales Prospectus for further information. The so-called "swing pricing procedure" may be employed. It establishes rules and principles to better protect shareholders from the effects of dilution, through activities of other shareholders.

How can I complain?

In case of complaints, you can contact IPConcept (Luxembourg) S.A. in writing at the address 4, rue Thomas Edison, L - 1445 Strassen, Luxembourg or by e-mail at info.lu@ipconcept.com. You can also find more information on the following website: www.ipconcept.com. Complaints about the person advising on or selling the product may be addressed directly to that person.
