The Autorité des Marchés Financiers (AMF) is responsible for supervising BNPP AM in relation to this Key Information Document.

This Product is authorised in Luxembourg and in accordance with the UCITS Directive.

Date of Production of the KID: 19/02/2026

What is this product?

Type

The Product is a share class of the Sub-Fund "AXA World Funds - Global Income Generation" (the Sub-Fund) which is part of the SICAV "AXA World Funds" (the "Company").

Term

This product has no maturity date, although it has been created for 99 years and could be liquidated under the conditions laid down in the articles of incorporation of the company.

Objectives

Investment Objective

The Sub-Fund is a multi asset class portfolio, seeking to provide regular income and to achieve medium term capital growth through dynamic and flexible allocation across a wide array of asset classes globally.

Investment Policy

The Sub-Fund is actively managed without reference to any benchmark.

The Sub-Fund is actively and discretionarily managed in order to capture opportunities across a wide array of asset classes, with an investment strategy that uses:

- strategic asset allocation (based on long term macroeconomic views)
- tactical asset allocation (based on the identification of short term market opportunities)

- extensive diversification, with no formal restriction on the proportion of assets that can be allocated to any one particular market. This diversification aims at exposing the Sub-Fund to a moderate level of volatility

The Sub-Fund is invested in a broad set of world market (including, up to 30%, emerging markets) bonds (including high-income generating bonds, either unrated, rated below or above investment grade) and equities (including high dividend equities through fundamental approach and/or the use of a proprietary quantitative process). The Sub-Fund may also get exposure to other asset classes including without limitation real estate, volatility of equity markets, commodities (notably through commodity indices, exchange traded funds, equities). Over the long term a high proportion of the Sub-Fund's assets will be invested in fixed income and Money Market Instruments. The allocation between the various asset classes is decided in a flexible and discretionary manner. The proportion of the Sub-Fund's assets that can be invested in equities and/or in commodities is very flexible and may vary from 0% to 50%.

The total assets of the Sub-Fund may be invested in or exposed to callable bonds. The Sub-Fund may also invest up to 25% of net assets in subordinated debt securities issued by banks, insurance companies and non-financial corporates.

The Sub-Fund may, up to 10%, hold distressed and defaulted securities as a result of their rating downgrade, if they are considered to be consistent with the

Sub-Fund's objective. These securities are expected to be sold within 6 months unless specific events prevent the Investment Manager from sourcing their liquidity.

Fixed income exposure of the Sub-Fund denominated in non-EUR currency will be partially hedged against EUR.

The Sub-Fund may invest up to 5% of net assets in contingent convertible bonds (CoCos).

The Sub-Fund may invest up to 10% of net assets in UCITS and/or UCIs. Within 200% of the Sub-Fund's assets, the investment strategy may be achieved by direct investments and/or through derivatives. Derivatives may also be used for efficient portfolio management and hedging purposes.

Dividend Policy: The Sub-Fund will be managed with the objective to deliver an annual dividend comprised between 2% and 6% which will be capitalized (for Capitalisation Shares) or distributed (for Distribution Shares), subject to market conditions. Payment of distributions (including those paid out of the Sub-Fund's capital) may reduce the value of your holding and impact the potential for long term capital growth.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

Income

For Capitalisation share classes (Cap), the dividend is reinvested.

Investment Horizon

The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to the following Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Intended retail investor

The sub-fund is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the sub-fund but nevertheless may bear total capital loss. It is suitable for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

We have classified this product as 3 out of 7 which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the Summary risk indicator can be materially relevant, such as counterparty risk, derivatives risk. For further information, please refer to the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		€10 000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment		
Stress	What you might get back after costs	€6 310	€7 390
	Average return each year	-36.90%	-5.87%
Unfavourable	What you might get back after costs	€8 810	€9 880
	Average return each year	-11.90%	-0.24%
Moderate	What you might get back after costs	€10 060	€10 880
	Average return each year	0.60%	1.70%
Favourable	What you might get back after costs	€11 840	€12 620
	Average return each year	18.40%	4.76%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable Scenario: This type of scenario occurred for an investment between 11 2024 and 12 2025.

Moderate Scenario: This type of scenario occurred for an investment between 03 2019 and 03 2024.

Favourable Scenario: This type of scenario occurred for an investment between 03 2020 and 03 2025.

An appropriate benchmark of the Product was used to calculate the performance.

What happens if BNP PARIBAS ASSET MANAGEMENT EUROPE SAS is unable to pay out?

The product is constituted as a separate entity from BNPP AM. In case of default of BNPP AM, the assets of the product kept by the custodian will not be affected. In case of default of the custodian, the risk of financial loss of the product is mitigated because of the legal segregation of the assets of the custodian from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	€301	€770
Annual cost impact (*)	3.0%	1.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.16 % before costs and 1.70 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.00 % of the amount that you pay when you enter the investment. This includes distribution costs of 2.00 % of the amount invested. This is the maximum amount you will pay. The person who sold you the product will inform you of the actual costs.	Up to €200
Exit costs	We do not charge an exit fee for this product.	€0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.84% of the value of your investment per year. This percentage is based on actual costs over the last year.	€83
Transaction costs	0.18 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€18
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	€0

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This Product has no minimum required holding period, the 5 years has been calculated to be in line with the time frame which the Product may need in order to achieve its investment objectives.

You may sell your investment before the end of the recommended holding period without penalty. The performance or risk of your investment may be negatively impacted. The section "What are the costs?" provides information on the impact of costs over time.

Please refer to the "What is this product" section for the redemption procedure.

How can I complain?

Complaints shall be addressed to the Complaint Handling Officer with the complainant' details (name, role, contact details, involved account numbers and any other relevant document) to the following address AXA World Funds 49, avenue J.F. Kennedy L-1855 Luxembourg Grand Duchy of Luxembourg or to compliancelux2@axa-im.com.

Other relevant information

You can get further information about this Product, including the prospectus, latest annual report, any subsequent half-yearly report and the latest Net Asset Value from the Fund Administrator: State Street Bank International GmbH (Luxembourg Branch) and from <https://funds.axa-im.com/>. They are available free of charge.

For information about the performance of the product up to 10 years and previous performance scenario calculations, please visit: <https://funds.axa-im.com/>.

The Environmental, Social and Governance criteria, as further detailed in the prospectus, contribute to, but are not a determining factor in, the investment manager's decision making.

When this product is used as part of a unit-linked contract, or similar contract, the additional information, such as the costs of the contract, which are not included in this document, in addition to the contract in case of claim and what happens in the event of failure of the insurance company, must be provided in the key information document of the contract issued by your insurer, broker or other insurance intermediary in accordance with their legal obligation.
