

## Key Information Document

### 2x Long Ether ETP (the “ETP”)

#### Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this ETP and to help you compare it with other products.

<b>Product</b>	2x Long Ether ETP
<b>PRIIP Manufacturer</b>	HANetf Multi-Asset ETC Issuer plc (the “Company”)
<b>ISIN</b>	XS2937253735
<b>Website</b>	www.hanetf.com
<b>Contacting the manufacturer</b>	Email: info@hanetf.com Tel: +44 (0)20 8145 1727
<b>Competent authority</b>	The Company is incorporated in Jersey and the competent authority is the Swedish Financial Supervisory Authority (Sw. Finansinspektionen) (the “SFSA”) in relation to this KID.
<b>KID Production Date</b>	07.03.2025

#### What is this Product?

<b>Type</b>	The ETP, is an exchange traded series of secured debt securities which are not units in a collective investment scheme, issued by the Company that are physically backed by the Underlying Asset (as defined below).
<b>Objectives and Policies</b>	The ETP is designed to offer investors an effective way to access daily leverage exposure to Ethereum. To achieve this, the ETP will hold one or more underlying assets (“Underlying Assets”) which seek to provide investment results that correspond to two times (2x) the return of Ethereum for a single day, before fees and expenses. The Underlying Assets do this by holding physical coins, or via derivative instruments giving exposure to Ethereum, including the use of futures contracts or swaps.  The ETP’s base currency is SEK.
<b>Term</b>	The ETP does not have a fixed term of existence, or maturity period. However, the Company has the right to terminate the ETP in limited circumstances, as set out in the base prospectus.
<b>Insurance benefits</b>	The ETP does not offer any insurance benefits
<b>Intended retail investor</b>	The ETP is intended for Institutional and professional investors: i) with the ability to bear losses up to the amount invested in the ETP are not seeking to preserve the amount invested and who are not looking for a guarantee of the amount invested; ii) have specific knowledge or experience of investing in similar products or financial markets along with having an understanding of the information contained in a PRIIPs ID; and (iii) seeking an ETP offering daily leveraged exposure.

#### What are the risks and what could I get in return?

##### Summary Risk Indicator

The risk indicator assumes you keep the ETP for 1 day  
The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this ETP compared to other ETPs. It shows how likely it is that the ETP will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance at a very high level, and poor market conditions are very likely to impact the Fund’s capacity to pay you.

**Be aware of currency risk. The currency of this ETP (and/or the trading line of your ETP) may be different from that of your country. As you may receive payments in a currency not that of your country, the final return will depend on the exchange rate.**  
The ETP does not include any protection from future market performance so you could lose some or all of your investment.  
For any holding period other than a day, the compounded daily leverage return over that longer period will be different to a product which aims to give a leverage return over that longer period. It may be higher or lower than the intended leverage factor, and these differences may be significant.  
Investors should consider periodically monitoring their investments in light of their investment goals and risk tolerance.

#### Performance Scenarios

What you will get from this ETP depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the ETP over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions.

<b>Example Investment: 10 000 EUR</b>		<b>Recommended Holding Period: 1 day</b>	
<b>Scenarios</b>		<b>If you exit after 1 day (Recommended Holding Period)</b>	
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment		
<b>Stress scenario</b>	What you might get back after costs	10 EUR	

	Average return	-99.9%
<b>Unfavourable scenario</b>	What you might get back after costs	6,020 EUR
	Average return	-39.8%
<b>Moderate scenario</b>	What you might get back after costs	9,950 EUR
	Average return	-0.5%
<b>Favourable scenario</b>	What you might get back after costs	12,930 EUR
	Average return	29.3%

The figures shown include all the costs of the ETP itself but may not include all the costs that you pay to your advisor or distributor/and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Due to market risk exposure, you can lose some or all of the amount invested during the recommended holding period of 1 day.

- **The stress scenario** shows what you might get back in extreme market circumstances.
- **Unfavourable scenario:** This type of scenario occurred for an investment between 03/08/2024 - 05/08/2024.
- **Moderate scenario:** This type of scenario occurred for an investment between 10/07/2024 - 11/07/2024.
- **Favourable Scenario:** This type of scenario occurred for an investment between 08/11/2024 - 11/11/2024.

#### What happens if HANetf Multi-Asset ETC Issuer plc is unable to pay out?

In case of a default by the Company, any claims made against the Company will be satisfied in order of the priority of payments set out in the conditions of the ETP and you may face a financial loss of some, or all the amount invested.

The ETP is not protected under any financial services compensation scheme.

#### What are the Costs?

The party advising on or selling you this ETP may charge you other costs. If so, this party will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover one-off, ongoing and incidental costs. These amounts depend on how much you invest, how long you hold the ETP and how well the ETP performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- For day 1 you would get back the amount that you invested (0% annual return).
- EUR 10 000 is invested.

Investment 10 000 EUR	
Scenarios	If you exit after 1 day
<b>Total costs</b>	0.83 EUR
<b>Annual cost impact**</b>	0.0083%

#### Composition of costs

One-off costs upon entry or exit		If you exit after 1 day
<b>Entry costs</b>	0% of the amount you pay in when entering this investment*	0 EUR
<b>Exit costs</b>	0% of your investment before it is paid out to you*	0 EUR
Ongoing costs		
<b>Management fees and other administrative or operating costs</b>	0.0055% of the value of your investment per day (this amount is obtained by dividing the annual cost by 365). This is an estimate based on actual costs over the last year	0.55 EUR
<b>Transaction costs</b>	0.0028% of the value of your investment per day (this amount is obtained by dividing the annual cost by 365). This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0.28 EUR
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this ETP.	0 EUR

\* Applicable to secondary market investors however secondary market investors will deal directly with a broker participant or via a stock exchange and will pay fees charged by their broker. Dealing spreads are publicly available on exchanges on which the shares are listed, or can be obtained from stock brokers. Please refer to your broker, financial adviser or distributor for the actual charges.

\*\*This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products.

#### How long should I hold the ETP and can I take my money out early?

Recommended holding period: 1 day

You will be able to sell this product at any time on the stock exchanges where it is listed; however, the amount you receive may be less than the amount you could expect to receive. By selling the ETP earlier than the recommended holding period, you may receive back more or less than you would have received if you had stayed invested until recommended holding period.

#### How can I complain?

Should you have any complaints about the ETP or the manufacturer, please send your complaints to in writing for the attention of the General Counsel by post or email (details set out below) and your complaints will be addressed with accordingly.
