

ETORO (EUROPE) LIMITED

ADDENDUM TO TERMS AND CONDITIONS FOR CRYPTOCURRENCIES TRADING

This Addendum to Terms and Conditions for Cryptocurrencies Trading (the “**Addendum**”) is supplemental to and forms part of the eToro (Europe) Limited (“**eToro**” or “**us**” or “**we**” or as appropriate) general **Terms & Conditions** and any other terms of use published on our website under the Regulation and License section, as amended from time to time (the “**Terms and Conditions**”). This Addendum sets out the terms and conditions under which you can trade the underlying **Cryptocurrencies** (a Cryptocurrency being a type of decentralized digital currency or asset which is not issued by any central bank or issuer in which encryption techniques are used to facilitate the generation of units of the currency or asset and verify the transfer of units) which we may at our sole discretion offer for trading on the eToro Trading Platform from time to time (“**Cryptocurrencies Trading Service**”). The Terms and Conditions, as supplemented and amended by this Addendum shall apply to your Cryptocurrency Trading Service, however in case of conflict between the provisions of this Addendum and the Terms and Conditions, the provisions of this Addendum will prevail. All capitalized terms used in this Addendum and not otherwise defined shall have the meaning ascribed to them in the Terms and Conditions.

Since **Cryptocurrencies** markets are decentralized and non-regulated our **Cryptocurrencies Trading Services** are unregulated services which are not governed by any specific European regulatory framework (including MIFID). Therefore, when using our **Cryptocurrencies Trading Service** you will not benefit from the protections available to clients receiving regulated investment services such as the access to the Investor Compensation Fund for Customers of Cypriot Investment Firms and the Financial Ombudsman Service for dispute resolution. You will continue to benefit from the rules relating to best execution and client money and safekeeping of client assets. As part of the **Cryptocurrencies Trading Service**, eToro may be relying on third party service providers (including affiliated companies) to buy or hold the **Cryptocurrencies** on your behalf and those third parties may be based outside of the EEA and/or may be unregulated. eToro will not be responsible in the event of losses caused by those third parties.

Please note - Our **Cryptocurrencies Trading Service** is not appropriate for everyone. A full explanation of the risks associated with our Trading Service is set out in the General Risk Disclosure and in the Terms and Conditions. The risk of loss in trading or holding **Cryptocurrencies** can be substantial and it may result in loss of all the capital invested in a transaction. You should therefore carefully consider whether trading or holding **Cryptocurrencies** is suitable for you in light of your financial condition. You should ensure you fully understand such risks before entering into this Agreement with us.

The trading of goods and products, real or virtual, as well as **Cryptocurrencies** involves significant risk. Prices can and do fluctuate significantly on any given day. Due to such price fluctuations, you may increase or lose value in your assets at any given moment and may result in loss of all the capital invested in a transaction. Any currency - virtual or not - may be subject to extreme swings in value and may even become worthless. There is an inherent risk that losses will occur as a result of buying, selling or trading anything on a market, particularly on a non-regulated market such as the **Cryptocurrencies** market.

Cryptocurrencies trading also has special risks not generally shared with official currencies or goods or commodities in a market. Unlike most currencies, which are backed by governments or other legal entities, or by commodities such as gold or silver, **Cryptocurrencies** are unique kind of currencies, backed by technology and trust. There is no central bank that can take corrective measure to protect the value of **Cryptocurrencies** in a crisis or issue more currency.

IMPORTANT NOTE - ETORO DOES NOT PROVIDE CRYPTOCURRENCIES TRADING SERVICE FOR USERS FROM CHINA. FOR SUCH USERS ANY CRYPTOCURRENCY TRANSACTION SHALL BE A CFD TRANSACTION.

ETORO DOES NOT ACCEPT ANY USERS IN THE USA (RESIDENTS AND CITIZENS), JAPAN, BRAZIL, TURKEY, CANADA (INCLUDING ONTARIO & QUEBEC), DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA (DPRK), IRAN, CUBA, ALBANIA, SERBIA, SUDAN OR SYRIA.

NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS ADDENDUM AND/OR THE GENERAL RISK DISCLOSURE, FRENCH RESIDENTS SHALL BE ELIGIBLE TO AN INTRINSIC PROTECTION. ACCORDINGLY AND INDEPENDENTLY OF THE MARKET

VOLATILITY, THEIR MAXIMUM LOSS WITH RESPECT TO EACH TRANSACTION SHALL BE THE TOTAL AMOUNT INVESTED IN SUCH TRANSACTION, AS UPDATED BY SUCH USER FROM TIME TO TIME.

Before you use our service, you should read this Addendum carefully, the Terms and Conditions, the General Risk Disclosure Notice, the Privacy Policy and any other documents that we have supplied or in the future will supply to you.

You acknowledge and agree by using, and/or by continuing to use the Service, you are entering into a legally binding contract and have read, understood and accepted this Cryptocurrencies Addendum. In particular, any price quoted in the Market Data may differ from the execution price you actually obtain.
- 5.3. Market Data constitutes valuable confidential information. As such, the data is the exclusive property of the exchange or the third party which provided such Market Data. Accordingly, you may use it only for your own trading purposes under the rules of the relevant exchange and you may not redistribute the data in any way. You should consult the website of the relevant exchange for full details of the rules.
- 5.4. You will not use the prices we make available to you for any purpose other than trading in your account with eToro, and you agree not to redistribute the prices we make available to you to any other person whether such redistribution be for commercial or other purposes.

6. **ORDERS**

6.1. **General**

- 6.1.1. You warrant and represent that you will use reasonable endeavors to ensure that any order placed by you with us are consistent with accepted market practice and conduct in the applicable Underlying Market. (“**Underlying Market**” shall mean - an exchange, Market Maker, Retail Service Provider and/or other similar body and/or liquidity pool on which the Cryptocurrencies are traded as the context requires; “**Market Maker**”, “**Retail Service Provider**” means a firm that provides on request buy and sell prices for Cryptocurrencies).
- 6.1.2. We may, in our sole discretion and at our sole option, decline the execution of any orders for a variety of reasons, including, but not limited to, the size of an order, market conditions, your breach of this Addendum or the Terms and Conditions, a violation of any applicable rules or regulations related to your orders, insufficient or inadequate securities or liquid funds in your Account (including all commission, charges, taxes and any amount in addition to the current price of the Cryptocurrency that we reasonably consider may be necessary), insufficient margin, risk considerations, we want to check the instruction with you for some reason (e.g., suspected fraud), we are concerned that the order may not have come from you or an authorized person on your behalf, you have exceeded any limit applicable to you or in respect of your dealings with us and other matters that affect trading generally.
- 6.1.3. If we accept an order and then an event takes place which means that it is no longer reasonable for us to act on that order, we will be entitled to disregard or cancel your order and we shall not have any liability to you as a result of such action. Examples include but are not limited to:
 - 6.1.3.1. a change in the applicable regulations, so that the order or the transaction to which the order relates is no longer in compliance with the applicable regulations;

- 6.1.3.2. if we cease to offer the Order you have requested.
- 6.1.4. We may be required to cancel a transaction if requested by an exchange or may be required to cancel an order if requested or recommended by an exchange and you agree to use all reasonable endeavors to assist us in this regard.
- 6.1.5. If you place an order (whether during normal market hours or when the market is closed), you agree to pay or receive the prevailing market price at the time your market order is executed. You understand that the price you pay may be significantly higher or lower than you had anticipated at the time you placed the order.
- 6.1.6. You are responsible for the monitoring of all of your orders entered into our electronic systems until such orders are confirmed or a cancellation is confirmed by us.
- 6.1.7. There is no guarantee that your order will be filled in full or in part. Where a delay occurs for any reason, we will attempt to execute the order as soon as reasonably practicable. You acknowledge and accept that the market price of the Cryptocurrencies may have moved during the time between our receipt and acceptance of your order and our attempt to execute order. In these circumstances, the third-party who has provided the quotation to us is not obliged to honor the indicative price you have received and, if that is the case, we may reject your order. Such movements in price may be in your favor or against you.
- 6.1.8. You acknowledge and agree that eToro reserves the right to cause any of your orders to be routed for execution to one or more exchanges or off-exchanges, associations, electronic communications networks or markets according to our sole discretion.
- 6.1.9. Unless we agree otherwise, all sums payable by you are due immediately and must be paid on entering into the transaction and will be paid in accordance with term 11.
- 6.1.10. Each order given by you will be binding on you notwithstanding that by entering into the order as applicable, you may have exceeded any limit applicable to you or in respect of your dealings with us.
- 6.1.11. You acknowledge that it may not be possible to cancel or modify an order. Any attempt to cancel or modify an order is simply a request to us to do so. We are not liable to you if we are unable to cancel or modify an order. You understand and agree that, if an order cannot be cancelled or modified, you are bound by any execution of the original order. You further acknowledge that attempts to modify or cancel and replace an order can result in an over-execution of the order or the execution of duplicate orders, that our systems do not prevent such over-executions or duplications from occurring, and that you shall be responsible for all such over-executions or duplications. If you enter a cancellation request, you agree to confirm that the cancellation request has been effected prior to entering a replacement order. You agree not to assume that any order has been executed or cancelled until you have received written confirmation from us. You are responsible for knowing the status of your pending orders before entering additional orders. You agree to contact us immediately if you are unclear on the status of an order.
- 6.1.12. The execution price reported to You on the relevant confirmation of the buy or sell order shall reflect the prices made available to us at the time of execution to which our spreads and commissions shall be added or deducted, as the case may be. Such bid-ask prices shall not necessarily reflect the price for the underlying Cryptocurrency as quoted on the relevant exchanges in which the Cryptocurrency is traded and/or the prices presented in charts and/or other market information made available by us. eToro disclaims any liability with respect to any such discrepancies.
- 6.1.13. You acknowledge that our platform is independent of any exchanges and we are under no obligation to quote a particular price or follow the trading rules consistent with such exchanges. You further acknowledge that the triggering of your transaction is linked to the prices we quote on our platform and not the prices quoted on any relevant exchanges. In determining whether the prices quoted on the platform reach or exceed the price accepted by Us in a transaction, We will be entitled (but not obliged) to disregard any prices quoted during any pre-market, post-market or intra-day auction periods in the relevant exchange,

during any intra-day or other period of suspension in the relevant exchange, or during any other period that in our reasonable opinion may give rise to short-term price spikes or other distortions. Our prices may differ from the current prices on the relevant exchanges and you acknowledge that a transaction may or may not be triggered even though: (a) an exchange never traded at the level of your transaction; or (b) the exchange did trade at the level of your transaction but for such a short period or in such low volumes that it would have been impractical to execute an equivalent transaction on the exchange.

- 6.1.14. When entering into an order for Cryptocurrencies, You irrevocably and unconditionally agree to accept the Cryptocurrency bid/ask prices in which the transaction shall be executed as shall be reflected on our trading platform as final and binding.
- 6.1.15. We may aggregate your orders with our own orders, orders of any of our associates and/or persons connected with us including employees and other clients. Furthermore, we may split your orders when executing them. You accept that aggregation and split of your order may result in you obtaining a less favorable price than if your orders had been executed separately.
- 6.1.16. We may use another executing broker, including an affiliate or a non-affiliated third party, to execute your orders, including eToro (Europe) Limited.
- 6.1.17. Without derogating from the generality of the foregoing or any other provision of this Addendum Conditions, We further reserves the right NOT to execute buy or sell orders for Cryptocurrencies and/or to close any open positions therein, without any further notice to you, in the following circumstances: (1) Your order violates any applicable laws, regulations or Rules, or is intended to defraud or manipulate the market; (2) abnormal market conditions and/or a significant disruption in or premature close of trading in of the underlying Cryptocurrency and/or the market on which the underlying Cryptocurrency is traded; (3) Force Majeure, acts of God, war (declared or undeclared), terrorism, fire or action by an exchange, regulatory or governmental authority that disrupts trading in the relevant security; (4) in the event liquidity providers are unable to provide liquidity to Us.

6.2. **Errors**

In the event of an error, whether via our Services, in a purchase order confirmation, in processing your purchase, or otherwise, we reserve the right to correct such error and revise your purchase transaction accordingly (including charging the correct price) or to cancel the purchase and refund any amount received. Your sole remedy in the event of an error is to cancel your purchase order and obtain a refund of any amount charged.

6.3. **Market volatility**

Particularly during periods of high volume, illiquidity, fast movement or volatility in the marketplace for any Cryptocurrency, the actual market rate at which a market order or trade is executed may be different from the prevailing rate indicated via the Services at the time of your order or trade. You understand that we are not liable for any such price fluctuations. In the event of a market disruption or Force Majeure event (as defined in the Terms and Conditions), eToro may do one or more of the following: (a) suspend access to the Services; or (b) prevent you from completing any actions via the Services, including closing any open positions. Following any such event, when trading resumes, you acknowledge that prevailing market rates may differ significantly from the rates available prior to such event.

6.4. **Suspension**

If at any time trading on the Underlying Market is suspended in any Cryptocurrency that forms the subject of your order, then the applicable order will also be suspended and you will not be able to sell any Cryptocurrency we hold on your behalf until such suspension is terminated and trading recommences.

Following lifting of suspension, any order that you may have given us with respect to the Cryptocurrency that have been triggered will be executed as soon as is reasonable in the circumstances. We cannot guarantee that your order will be executed at the first available Underlying Market price.

6.5. **Delisting and/or non-supported Cryptocurrencies**

- 6.5.1. If at any time any of the Cryptocurrencies that forms the subject of your order is delisted and/or we no longer support the trading in such Cryptocurrencies for any reason, then the applicable order will be immediately closed.
- 6.5.2. If eToro is notified that a Cryptocurrency you hold in your Account is likely to be delisted and/or removed and/or canceled from any of the exchanges (some of them or all) and eToro believes that it shall not be able to trade in such Cryptocurrencies, eToro shall make an effort to sell the Cryptocurrencies on your behalf at such time and price, and in such manner, as it determines.

6.6. **Force Majeure Events**

We may, in our reasonable opinion, determine that a Force Majeure Event exists. A Force Majeure Event will include, but is not limited to, the following: (i) any act, event or occurrence (including without limitation any strike, riot or civil unrest, act of terrorism, war, industrial action, acts and regulations of any governmental or supra national bodies or authorities) that, in our opinion, prevents us from maintaining an orderly market in one or more of the Cryptocurrencies in respect of which we deal on the trading platform; (ii) the suspension or closure of any exchange or the nationalization, government sequestration, abandonment or failure of any instrument on which we base, or to which we in any way relate, our quote, or the imposition of limits or special or unusual terms on the trading in any such market or on any such event; (iii) the occurrence of an excessive movement in the level of any transaction and/or exchange or our anticipation (acting reasonably) of the occurrence of such a movement; (iv) any breakdown or failure of transmission, communication or computer facilities, interruption of power supply, or electronic or communications equipment failure; or (v) the failure of any relevant supplier, financial institution intermediate broker, agent or principal of ours, custodian, sub-custodian, dealer, exchange, clearing house or regulatory or self-regulatory organization, for any reason, to perform its obligations. If we determine that a Force Majeure Event exists, we may without notice and at any time, acting reasonably, take one or more of the following steps: (a) alter your Margin requirements; which may result in you being required to provide additional Margin; (b) close all or any of your open Transactions at such closing prices as we reasonably believe to be appropriate; (c) suspend or modify the application of all or part of these Terms and Conditions to the extent that the Force Majeure Event makes it impossible or impracticable for us to comply thereto; or (d) alter the trading hours for a particular Transaction. (e) void all open transactions in affected Instruments. You agree that we will not be liable in any way to you or to any other person in the event of a Force Majeure Event, nor for our actions pursuant to this section if we decide to take such action. The parties shall be released of all responsibilities for partial or full non-fulfilment, as well as for improper fulfilment of the obligations under this Addendum, if such non-fulfilment or improper fulfilment was a result of a Force Majeure Event, which occurred after the Services were terminated.

6.7. **Operation of Cryptocurrency Protocols**

- 6.7.1. eToro does not own or control the underlying software protocols which govern the operation of Cryptocurrencies available for trading in our platform. In general, the underlying protocols are open source and anyone can use, copy, modify, and distribute them. By using eToro's Services, you acknowledge and agree (i) that eToro is not responsible for operation of the underlying protocols and that eToro makes no guarantee of their functionality, security, or availability; and (ii) that the underlying protocols are subject to sudden changes in operating rules ("**Forks**"), and that such forks may materially affect the value, function, and/or even the name of the Cryptocurrency eToro holds for your benefit. In the event of a fork, you agree that eToro may temporarily suspend eToro operations (with or without advance notice to you) and that eToro may, in its sole discretion, (a) configure or reconfigure its systems or (b) decide not to support (or cease supporting) the forked protocol entirely.
- 6.7.2. According to our sole discretion we may decide (but for avoidance of any doubt we are not obligated to do so) to adjust your account in respect of a Fork depending on the circumstances of each event attributable to any specific Cryptocurrency held by You. Such adjustment shall be calculated by us, net of any taxes which may apply with respect thereto. In doing so we will make efforts to effect such adjustment on the basis of good faith and fairness and, where appropriate, by taking such action as is consistent with market

practice and/or taking into account the treatment we may receive from our counterparties or any relevant third party.

6.7.3. You acknowledge and agree that eToro assumes absolutely no responsibility whatsoever in respect of an unsupported branch of a forked protocol.

6.8. Short transactions are CFDs transaction

You may only sell Cryptocurrencies held on your account. If you have instructed us to sell a Cryptocurrencies that you do not own at the time of the sale and that is not held on your account ("**Short Transaction**"), such instruction shall be an order of CFD transaction, regardless of the leverage, as fully described in the Terms and Conditions.

7. YOUR CRYPTOCURRENCIES RECORDS

Cryptocurrencies which are held by eToro for your Account will be held by (a) eToro, as your custodian or (b) a nominee other than eToro, including a sub- custodian. Your ownership of your Cryptocurrencies will be reflected in eToro's records.

8. AGGREGATION

We may aggregate orders received from our clients. Aggregation means that we may combine your order with those of other clients of ours for execution as a single order. We may combine your order to deal with those of other clients if we reasonably believe that this is in the overall best interests of our clients as a whole. However, on occasions, aggregation may result in you obtaining a less favorable price once your order has been executed. You acknowledge and agree that we shall not have any liability to you as a result of any such less favorable price being obtained.

9. OMNIBUS ACCOUNT

9.1. All Cryptocurrencies held by eToro or eToro's nominee for you will be deposited by eToro in eToro's wallet or in any other manner as may be possible from time to time and will therefore be pooled with Cryptocurrencies of other Clients. All funds held by eToro for a Client (except for eToro Credits) will be segregated by eToro and held in segregated bank accounts. eToro may hold your money and aggregate the money of other clients in the same bank account (an omnibus account).

9.2. Omnibus Account Risk: The risk of loss emanating from the use of omnibus accounts in third parties. The above risk may hold other types of risks including legal, liquidation risk, haircut risk, third party risk etc.

9.3. In the event of the insolvency or any other analogous proceedings in relation to that third party, eToro may only have an unsecured claim against the third party on behalf of the client, and the client will be exposed to the risk that the money and/or Cryptocurrencies received by eToro from the third party is insufficient to satisfy the claims of the client in respect of the relevant account and/or wallet. eToro does not accept any liability or responsibility for any resulting losses.

10. CUSTODY

10.1. Client Assets - You instruct us to hold any Cryptocurrencies bought on your behalf until we receive further instruction from you to sell. We will act as custodian and will hold Instruments on your behalf in accordance with any regulations to the extent applicable.

10.2. We may, subject to any applicable regulations, appoint any other person as a sub-custodian or otherwise to hold Cryptocurrencies, including affiliated companies of eToro which may be incorporated outside of the EEA and be unregulated. We will exercise reasonable skill and care in the selection, appointment and periodic review of sub-custodians but we are not liable for their acts, omissions, insolvency or dissolution. Any discrepancy in terms of client assets and any resulting shortfall will be dealt with in accordance with any applicable regulations.

Detailed records of all your Cryptocurrencies held by us will be kept at all times to show that your Cryptocurrencies are held on your behalf, for your benefit and do not belong to us or any sub-custodian.

- 10.3. Your Cryptocurrencies will be held as described above (pooled together with other clients' Cryptocurrencies in an omnibus co-mingled custody account and/or wallet and/or any other manner as shall be possible at that time, subject to any applicable law. If we or our third-party nominee were to become insolvent there may be delays in identifying individual assets, and possibly an increased risk of loss if there should be a shortfall because additional time will be needed to identify the assets held for specific clients. In addition, in the event of an unreconciled shortfall caused by the default of a custodian and/or sub-custodian, you may share proportionately in that shortfall.
- 10.4. You remain the beneficial owner of the Cryptocurrencies and money that we hold on your behalf and agree that you will not try to sell, mortgage or otherwise deal in or part with beneficial ownership of the Cryptocurrencies and money held on your account with us.
- 10.5. You will not be entitled to any interest in respect of Cryptocurrencies and/or money held by us as custodian and any interest will be retained by us.
- 10.6. eToro will maintain true, complete and accurate records relating to the fiat money and Cryptocurrencies held by it for each Client. eToro will take reasonable care in the selection and ongoing supervision of the wallet and/or bank and/or depository with which the fiat money and Cryptocurrencies are deposited, but will not be liable for the acts or omissions of the wallet and/or bank and/or depository. Your assets may be at risk if the wallet or the bank or depository becomes insolvent. If any of the fiat money or Cryptocurrencies held for you by eToro are properly passed to the account and/or wallet of a third party in connection with a transaction or in order to meet margin or collateral obligations, the funds or Cryptocurrencies may be at risk if the third party becomes insolvent. Since your fiat money and Cryptocurrencies will be pooled with fiat money and Cryptocurrencies belonging to other Clients, you will not have a legal claim against a specific sum of money or a specific sum of Cryptocurrency. Instead, any claim will be against the pool in general. If there is an irreconcilable shortfall in the pool of fiat money or Cryptocurrencies following a default by the wallet service provider or bank or depository (for example, if it becomes insolvent), you may not receive your full entitlement to the fiat money or Cryptocurrencies. If so, you will share in the shortfall pro rata.
- 10.7. The laws of some territories outside Cyprus do not recognize the legal concept of a "client account". If eToro becomes insolvent and any of your fiat money or Cryptocurrencies are held in the name of eToro by a wallet service provider or bank or depository in such a territory, those funds or Cryptocurrencies may therefore be available to eToro's creditors generally and so may be at risk. If your fiat money or Cryptocurrencies are held by a bank or depository outside the EEA, the applicable legal and regulatory regime may differ from that of the EEA. Your rights may differ accordingly, particularly if the wallet service provider or bank or depository defaults.

11. **FEE**

- 11.1. You will be subject to certain fees and commissions. You agree to pay brokerage commissions, charges, foreign exchange dealing commissions on currency conversions, credit card processing fees and other fees promptly as set forth in the eToro's then-current Fee Page (<http://www.etoro.com/en/customer-service/fees/>) (the "**Fee Page**") as applicable to your account and the transactions and Services you receive. You also agree to pay all applicable country, federal, state and local taxes. You authorize eToro automatically to debit your account for any such commissions, charges, fees and taxes. eToro may modify the fee schedule at any time.
- 11.2. Additional charges may also be incurred by you in the case of delayed or failed settlement of a transaction. Any such amounts will be your responsibility and where appropriate will be deducted from your account.
- 11.3. We may charge you for the provision by us to you of Market Data or any other account feature or such other fees as we reasonably decide from time to time.

12. SETTLEMENT OF YOUR TRADES

- 12.1. To execute a purchase order for Cryptocurrencies, eToro requires that your account contains available funds equal to or greater than the purchase price of the Cryptocurrencies plus any associated fees, commissions and margins and that all payments for the purchase be made without set-off, counterclaim or deduction.
- 12.2. To execute sell orders for Cryptocurrencies, eToro requires that your account contains the Cryptocurrencies which are the subject of the sell order and that such Cryptocurrencies are free and clear of any liens, charges or encumbrances and are in good deliverable form or that it contains the required collateral for the short sale (if applicable). You agree that any purchase or sell order accepted (inadvertently or otherwise) by us without sufficient funds or Cryptocurrencies in your Account, will be subject to liquidation in the case of a purchase order, or buy-in in the case of a sell order, at your expense.
- 12.3. Settlement of purchases and sales will be at your risk. Accordingly, eToro will not be liable to you if any other counterparty to an order defaults. Applicable law may require eToro, the Execution Broker, any other counterparty to deduct tax from sale proceeds before they are credited to your account or remitted to you from your account.
- 12.4. eToro will effect any currency conversions necessary in order to settle a purchase or sale at such rates, and in such manner, as it may, in its discretion, determine.
- 12.5. We are not responsible for any delay in the settlement of a transaction resulting from circumstances beyond our control, or the failure of any other person or party (including you) to perform all necessary steps to enable completion on the settlement date.
- 12.6. We may refuse to allow a withdrawal on any account that you have with us if it would leave insufficient funds in the account to pay for any unsettled transactions. Where you make payment into your account and then make a withdrawal shortly afterwards, we reserve the right to delay settlement for up to eight business days to ensure your payment has cleared.
- 12.7. If you buy Cryptocurrencies, the consideration for the transaction and, in addition, commission payable and all applicable charges and taxes to that transaction will be your responsibility and will be deducted from your account and held by us pending settlement. Monies deducted will not be treated as client money on the day of expected settlement. If settlement does not occur on the day of expected settlement the monies will be treated as client money. It is your responsibility to ensure at all times that sufficient cleared funds are on your account to satisfy settlement of any transaction and all commission, charges and taxes associated with that transaction.
- 12.8. If you sell Cryptocurrencies, the consideration for the transaction less commission and all applicable charges and taxes to that transaction will be available on your account for reinvestment but will be unable to be withdrawn from your account until the transaction has settled. It is your responsibility to ensure at all times that sufficient cleared funds are on your account to satisfy settlement of any transaction and all commission, charges and taxes associated with that transaction.
- 12.9. Subject to the terms of this Addendum, we will use commercially reasonable efforts to settle trades within two (2) business days of the date upon which users have agreed to execute a trade via the Services.
- 12.10. **“Settlement Date”** – Date on which fiat money and Cryptocurrencies must exchange hands between a buyer and a seller; as opposed to the transaction date (trading date) on which an order is executed.

13. WE MAY LOAN ANY OF YOUR CRYPTOCURRENCIES

You authorize eToro to lend, as your agent, to ourselves or others any Cryptocurrencies held by us for your benefit and neither we nor they shall have any obligation to retain under our or their possession and control a similar amount of such Cryptocurrencies. In connection with such loans, we may receive and retain certain benefits to which you shall not be entitled.

14. MARKET ABUSE

- 14.1. You represent and warrant to us that You will comply with all applicable laws and regulations in relation to this Addendum and any transaction with us; in particular, you covenant that you will not use the Trading Platform for the purposes of insider dealing, market manipulation, front-running or any other form of fraud or market abuse;
- 14.2. In the event that (a) you have placed an order in breach of the representations and warranties given above; or (b) we have reasonable grounds for suspecting that you have done so, we may, at our absolute discretion and without being under any obligation to inform you of our reason for doing so, treat any outstanding proposed transactions as having been cancelled and sell any Cryptocurrencies held by us on your behalf at the time.

15. RISKS WARNINGS, DISCLAIMERS AND LIMITATIONS ON LIABILITY

15.1. Risk Warnings and Disclaimers

15.1.1. Trading risks

- 15.1.1.1. **Since Cryptocurrencies markets are decentralized and non-regulated our Cryptocurrencies Trading Services are unregulated services which are not governed by any specific European regulatory framework (including MIFID). This means that there is no central bank that can take corrective measure to protect the value of Cryptocurrencies in a crisis or issue more currency. Therefore, when using our Cryptocurrencies Trading Service you will not benefit from the protections available to clients receiving regulated investment services such as the access to the Investor Compensation Fund for Customers of Cypriot Investment Firms and the Financial Ombudsman Service for dispute resolution. You will continue to benefit from the rules relating to best execution and client money and safekeeping of client assets. As part of the Cryptocurrencies Trading Service, eToro may be relying on third party service providers (including affiliated companies) to buy or hold the Cryptocurrencies on your behalf and those third parties may be based outside of the EEA and/or may be unregulated. eToro will not be responsible in the event of losses caused by those third parties.**
- 15.1.1.2. **YOU HEREBY FURTHER ACKNOWLEDGE THAT THE CRYPTOCURRENCIES MARKETS ARE DETERMINED BY DEMAND AND SUPPLY ONLY.** The Cryptocurrencies market is a dynamic arena and their respective prices are often highly unpredictable and volatile. The prices of Cryptocurrency is usually not transparent and highly speculative and susceptible to market manipulation. In the worst case scenario the product could be rendered worthless.
- 15.1.1.3. It is important to make a distinction between indicative prices which are displayed on charts and dealable prices which are displayed on our trading platform. Indicative quotes only give an indication of where the market is. Because the Cryptocurrencies markets are decentralized, meaning it lacks a single central exchange where all transactions are conducted, each market maker may quote slightly different prices. Therefore, any prices displayed on any chart made available by us or by a third party will only reflect "indicative" prices and not necessarily actual "dealing" prices where trades can be executed.
- 15.1.1.4. Cryptocurrency trading is prone to being misused for illegal activities due to the anonymity of transactions and investors would be adversely affected if law enforcement agencies investigate any alleged illicit activities.
- 15.1.1.5. **ACCORDINGLY, CRYPTOCURRENCIES SHOULD BE SEEN LIKE AS AN EXTREMELY HIGH RISK ASSET AND YOU SHOULD NEVER INVEST FUNDS THAT YOU CANNOT AFFORD TO LOSE.** Given the foregoing, Cryptocurrencies are not appropriate for all investors. You should not deal in these products unless you have the necessary knowledge and expertise, you understand these products' characteristics and your exposure to risk. You should also be satisfied that the product is suitable for you in light of your circumstances and financial position. In addition, use of our Services can never be considered a safe

investment rather than only an investment with a high risk of loss inherently associated with it. Furthermore, our own spread is added to online quotes which makes a trade on our websites even more volatile.

- 15.1.1.6. The risk of loss in trading Cryptocurrencies can be substantial. You should, therefore, carefully consider whether such trading is suitable for you in light of your circumstances and financial resources. You should be aware that You may sustain a total loss of the funds in your Account. If the market moves against your position, you may be called upon by us to provide a substantial amount of additional margin funds, on short notice, in order to maintain your position. If you do not provide the required funds within the time required by us, your position may be liquidated at a loss, and you will be liable for any resulting deficit in your account.
- 15.1.1.7. eToro currently allows trading in cryptocurrencies over the weekend and it reserves the right not to do so. Should eToro so elects, trading in cryptocurrencies shall be allowed only from Monday through Friday. Given that the cryptocurrencies exchanges may operate over weekends, there may be a significant difference between Friday's close and Sunday's open. All such factors may result in you either not completing an order on a specific trading day or completing an order on a substantially less favorable price.
- 15.1.1.8. Under certain market conditions, you may find it difficult or impossible to liquidate a position. This can occur, for example, when the market reaches a daily price fluctuation limit ("limit move"), if there is insufficient liquidity in the market.
- 15.1.2. Internet and computers transmission risks. There are risks associated with utilizing an Internet-based trading system including, but not limited to, the failure of hardware, software, and Internet connections, the risk of malicious software introduction, and the risk that third parties may obtain unauthorized access to information and/or assets (including your Cryptocurrencies) stored on your behalf.
- 15.1.3. Blockchain Risks. Since blockchain is an independent public peer-to-peer network and is not controlled in any way or manner by the eToro, eToro shall not be responsible for any failure and/or mistake and/or error and/or breach which shall occur in blockchain or in any other networks in which the Cryptocurrencies are being issued and/or traded. You will be bound and subject to any change and/or amendments in the blockchain system and subject to any applicable law which may apply to the blockchain. We make no representation or warranty of any kind, express or implied, statutory or otherwise, regarding the Blockchain functionality nor for any breach of security in the Blockchain.
- 15.1.4. Operation of Cryptocurrency Protocols. eToro does not own or control the underlying software protocols which govern the operation of Cryptocurrencies available for trading on our platform. In general, the underlying protocols are open source and anyone can use, copy, modify, and distribute them. eToro is not responsible for operation of the underlying protocols and eToro makes no guarantee of their functionality, security, or availability. The underlying protocols are subject to sudden changes in operating rules ("Forks"), and such Forks may materially affect the value, function, and/or even the name of the Cryptocurrency eToro holds for your benefit. In the event of a Fork, eToro may temporarily suspend eToro operations (with or without advance notice to you) and that eToro may (a) configure or reconfigure its systems or (b) decide not to support (or cease supporting) the Forked protocol entirely. eToro may, but is not obligated to do so, adjust your account in respect of a Fork depending on the circumstances of each event attributable to any specific Cryptocurrency held by You.
- 15.1.5. Third Parties' Risks. We may elect to execute any order and/or hold any fiat money and Cryptocurrencies via Third Parties. Such Third Parties are not banks that hold their fiat money/virtual currency as a deposit. If any such Third Party loses any money, fails or goes out of business, there is no specific legal protection that covers you for losses arising from any funds you may have held with such Third Party, even when such party is registered with a national authority. Depending on the structure and security of the digital wallet, some may be vulnerable to hacks, resulting in the theft of virtual currency or loss of customer assets. eToro will not be responsible in the event of losses caused by those Third Parties.

15.2. Limitation on Liability

- 15.2.1. Without prejudice to any other terms of this Addendum and the Terms and Conditions, we will have no liability to you in relation to any loss, costs or expenses that you suffer as a result of any delay or change in market conditions before we execute an order or before a transaction settles;
- 15.2.2. Computer Viruses. We shall not bear any liability, whatsoever, for any damage or interruptions caused by any computer viruses, spyware, scareware, Trojan horses, worms or other malware that may affect your computer or other equipment, or any phishing, spoofing or other attack. We advise the regular use of a reputable and readily available virus screening and prevention software. You should also be aware that SMS and email services are vulnerable to spoofing and phishing attacks and should use care in reviewing messages purporting to originate from eToro.
- 15.2.3. Cyber Attack. In no case shall eToro be liable for any damage caused by or contributed by or arising from the use or operation, as a mean for inflicting harm of any computer, computer system, computer software program, malicious code, computer virus or process or any other electronic system.
- It shall not be liable for any loss caused by theft, robbery, burglary, hold up or other criminal taking if a computer, computer system, computer software program, malicious code, computer virus or process or any other electronic system is used in the omission of such act(s).
- 15.2.4. Internet and computers transmission risks. You acknowledge that eToro shall not be responsible for any communication failures, disruptions, errors, distortions or delays you may experience when trading via the Services, howsoever caused. It will also not be responsible for any damage caused to you (including failure in buying and/or holding for you the Cryptocurrencies) which was caused by a reason beyond eToro's control such as Internet or Computer failure, cyber-attack, the Cryptocurrency network failure (such as blockchain), computer Viruses, or any of the risks described herein in this clause 15.1.2.
- 15.2.5. We make no warranty that the trading platform and/or blockchain system or the server that makes it available, are free of viruses or errors, that its content is accurate, that it will be uninterrupted, or that defects will be corrected. We will not be responsible or liable to you for any loss of any kind, from action taken, or taken in reliance on material, or information, contained on eToro's trading platform and/or on Blockchain systems.
- 15.2.6. Any and all indemnities, warranties, terms and conditions (whether express or implied) are hereby excluded to the fullest extent permitted under the law.
- 15.2.7. We will not be liable, in contract, or tort (including, without limitation, negligence), other than where we have been fraudulent.
- 15.2.8. eToro makes no representations about the accuracy or completeness of historical Cryptocurrency price data available on the trading platform.
- 15.2.9. eToro shall not be liable for any and all losses resulting from a network failure of the Cryptocurrencies cryptographic protocol.
- 15.2.10. eToro shall not be liable for any and all losses caused by a custodian and/or by any Third Party.
- 15.2.11. WITHOUT DEROGATING FROM THE ABOVE IN NO EVENT SHALL ETORO, ITS AFFILIATES AND SERVICE PROVIDERS, OR ANY OF THEIR RESPECTIVE OFFICERS, DIRECTORS, AGENTS, JOINT VENTURERS, EMPLOYEES OR REPRESENTATIVES, BE LIABLE (A) FOR ANY AMOUNT GREATER THAN THE VALUE OF THE SUPPORTED DIGITAL CURRENCY ON DEPOSIT IN YOUR COINBASE ACCOUNT OR (B) FOR ANY LOST PROFITS OR ANY SPECIAL, INCIDENTAL, INDIRECT, INTANGIBLE, OR CONSEQUENTIAL DAMAGES, WHETHER BASED IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, ARISING OUT OF OR IN CONNECTION WITH AUTHORIZED OR UNAUTHORIZED USE OF THE ETORO SITE OR THE ETORO SERVICES, OR THIS AGREEMENT, EVEN IF AN AUTHORIZED REPRESENTATIVE OF ETORO HAS BEEN ADVISED OF OR KNEW OR

SHOULD HAVE KNOWN OF THE POSSIBILITY OF SUCH DAMAGES.
